

Product Check-in (Receiving products from outside source)	PC 001 - Data entry incomplete / not performed / incorrect
	PC 002 - Shipment incomplete/incorrect
	PC 003 - Products and paperwork do not match
	PC 004 - Shipped under inappropriate conditions (e.g. platelets on ice)
	PC 005 - Return to inventory
	PC 006 - Product confirmation
	PC 099 - Not specified
Product/Patient Request	PR 001 - Order for wrong patient
	PR 002 - Order incomplete/incorrect
	PR 003 - Special needs not indicated (e.g. Auto, CMV negative)
	PR 099 - Not specified
Order Entry (Transfusion Service)	OE 001 - Order incorrectly entered
	OE 002 - Order entry not done
	OE 003 - Incorrect component ordered
	OE 099 - Not specified
Sample Collection (Transfusion Service or other)	SC 001 - Labeled incorrectly
	SC 002 - Not labeled
	SC 003 - Wrong patient collected
	SC 099 - Not specified
Sample Handling	SH 001 - Sample arrives without paperwork
	SH 002 - Paperwork and sample do not match
	SH 003 - Patient name or number not correctly recorded on paperwork
	SH 004 - Intra-laboratory labeling incorrect
	SH 005 - Sample incorrectly accessioned
	SH 006 - Data entry is incorrect
	SH 099 - Not specified
Sample Testing	ST 001 - Data entry incorrect/not performed
	ST 002 - Record review incomplete /incorrect
	ST 003 - Computer warning overridden
	ST 005 - Sample tube incorrectly labeled
	ST 007 - Sample tubes mixed up
	ST 009 - Mislabeled test tubes w/ wrong name/number
	ST 011 - Mislabeled test information
	ST 012 - Patient testing not performed
	ST 013 - Incorrect testing method chosen
	ST 014 - Testing performed incorrectly
	ST 015 - Test result misinterpreted

Event Codes

	ST 016 - Reagent/Equipment
	ST 017 – Mismatch between ABO/Rh at second check
	ST 018 – Mismatch between current and historical type
	ST 019 - Additional testing not performed
	ST 020 - Administrative check (2 nd check at time work performed, self/2 nd person)
	ST 021 - Subsequent check (after the fact record review, audit)
	ST 099 - Not specified
Product Storage (Unit Storage)	US 001 - Incorrect storage of product in transfusion service (e.g. conditions or location)***
	US 002 - Outdated component in stock
	US 099 - Not specified
Product Manipulation (Unit Manipulation)	UM 001 - Data entry incomplete/incorrect
	UM 002 - Record review incomplete/ incorrect
	UM 003 - Wrong component selected
	UM 004 - Administrative check (2 nd check)
	UM 005 - Labeling incorrect
	UM 007 - Special processing needs not checked
	UM 008 - Special processing needs not understood or misinterpreted
	UM 009 - Special processing not done
	UM 010 - Subsequent check (review/audit)
	UM 099 - Not specified
Product Selection (Unit Selection) (for crossmatch, for special processing, or for issue)	SE 001 - Incorrect product/component selected
	SE 002 - Data entry incomplete/incorrect
	SE 003 - Not checking/incorrect checking of product and/or patient information
	SE 005 - Historical file misinterpreted/not checked
	SE 007 - Special processing needs not checked
	SE 009 - Special processing needs not understood or misinterpreted
	SE 011 - Special processing not done
	SE 099 - Not specified
Available for issue	AV 001 - Other
	AV 002 - Product incorrectly tested
	AV 003 - Inappropriate product (stock instead of DD, RBC not RBCL)
	AV 099 - Not specified

Product Issue (Unit Issue)	UI 001 - Data entry incomplete/incorrect
	UI 002 - Record review incomplete /incorrect
	UI 003 - Pick-up slip did not match patient information
	UI 004 - Incorrect product selected from the shelf (for wrong person, right person but out of order)
	UI 005 - Issue delayed
	UI 006 - LIS warning overridden
	UI 007 - Computer issue not completed
	UI 009 - Not checking/incorrect checking of product and/or patient information
	UI 011 - Product delivered to the incorrect location
	UI 013 - Historical file misinterpreted/not checked
	UI 019 - Wrong blood issued (incompatible, not leukoreduced, not auto, or otherwise does not meet requirements)
	UI 020 - Administrative review (self/2 nd check)
	UI 021 - Subsequent check (review/audit after the fact)
UI 099 - Not specified	
Product Administration (Unit transfusion / Biological product administration)	UT 001 - Administered correct product to wrong patient
	UT 002 - Administered wrong product to correct patient
	UT 003 - Product not administered
	UT 004 - Incorrect storage of product on floor
	UT 005 - Administrative review (product/patient info at bedside)
	UT 006 - Administered product with incompatible IV fluid
	UT 007 - Administration delayed
	UT 008 - Wrong product chosen from satellite refrigerator
	UT 010 - Administered products in inappropriate order
	UT 012 - Floor/clinic did not check for existing products in their area
	UT 013 - Labeling problem on product
	UT 099 - Not specified
	Miscellaneous
MS 099 - Not specified
